Description

DICK ErgoGrip Boning Knife, Wide – Precise Boning and Trimming in Meat Processing

The DICK ErgoGrip boning knife in the wide version is a professional hand tool for meat and food processing. The 13 cm blade enables safe and controlled work when boning and trimming meat. The knife is part of the ErgoGrip series by F. DICK, designed for use in demanding commercial environments.

Product Features

- Wide blade geometry for flat boning and trimming
- Short, manageable blade length for precise control in confined areas
- Part of the ErgoGrip series – designed for sustained commercial use in food processing

- Coloured handle to support colour-coding systems in the workplace (HACCP-compliant area separation)
