Description

DICK ErgoGrip Boning Knife, Wide – Wide Blade for Precise Boning and Trimming

The DICK ErgoGrip boning knife with wide blade is a professional tool for meat and food processing. The 13 cm blade is suited for boning and trimming meat, where a wider blade geometry offers advantages over narrow boning knives. The knife belongs to the ErgoGrip series by F. DICK and is designed for commercial use.

Product Features

- Wide blade shape for flat-surface work during boning and trimming
- Designed for professional use in meat processing and butchery
- Part of the ErgoGrip series for ergonomic working over extended periods of use
