Description

VIKAN Replacement Cartridges – Accessories for Hygiene-Compliant Cleaning Systems

VIKAN Replacement Cartridges are exchange components for compatible VIKAN cleaning devices, enabling continuous operation without replacing the entire unit. They are designed for use in hygiene-sensitive environments and support the maintenance of high cleanliness standards in commercial operations. As replacement and consumable items from the VIKAN range, they are matched to the respective carrier system.

Product Features

- Replacement cartridges for compatible VIKAN cleaning devices
- Enable continued use of the base unit without complete replacement
- Suitable for hygiene-sensitive applications in industry and commerce
- Coordinated system component from the VIKAN range
- Contribution to compliance with operational hygiene standards
