Description

Jumbo Roll Dispenser made of Plastic – reliable wall mounting for jumbo rolls in hygiene areas

The jumbo roll dispenser made of plastic is designed for use with jumbo toilet paper rolls and is suitable for continuous operation in commercial washrooms, production facilities and other hygiene-relevant areas. The plastic housing is easy to clean and requires minimal maintenance. The white finish blends unobtrusively into standard sanitary fittings.

Product Features

- Compatible with standard jumbo rolls for commercial use
- Robust plastic housing, easy to clean
- Designed for continuous operation in high-traffic washrooms

- Wall mounting saves floor space and facilitates dispensing
- Low maintenance due to simple roll change handling
