Description

POM Bar for Small Knife Basket – Replacement Part for Safe Blade Separation

The POM bar in yellow is a replacement and accessory part for small knife baskets, as used in professional food processing for the organised and safe storage of knives. The bar made of POM (polyoxymethylene) provides separation of the blades within the basket, protecting the cutting edges from mutual damage. The product is available as an individual piece and is compatible with knife basket models of the 99000, 99000G, 99000R and 99000S series.

Product Features

- Separates blades within the knife basket and protects cutting edges from mutual damage
- Material POM (polyoxymethylene) – food-safe, robust and easy to clean
- Colour-coded in yellow – facilitates assignment and differentiation in practice
- Designed for use in small knife baskets in professional operations

- Compatible with knife basket models 99000, 99000G, 99000R and 99000S
