Product data

Description

VIKAN Hand Scraper 4009 – Stainless Steel Blade Scraper for Kitchen, Counter and Production

The VIKAN Hand Scraper 4009 is a hand-held scraping tool with a stainless steel blade and a blade width of 100 mm. It is suitable for scraping and cleaning surfaces in food processing, at fresh food counters, and in production areas with high hygiene requirements. The robust construction and corrosion-resistant blade material make it suitable for daily use under commercial conditions.

Product Features

- Stainless steel blade for high corrosion resistance and easy cleaning
- Suitable for hygiene-critical work areas in food processing
- Compact format for precise, controlled work on surfaces
- Applicable in kitchen and counter areas as well as industrial production
- From VIKAN – manufacturer focused on hygiene solutions for the food industry

Technical Data / Specifications

- Blade material: Stainless steel
- Blade width: 100 mm
- Model: 4009
- Manufacturer: VIKAN
