Description

DICK Boning Knife 13 cm – curved, stiff blade for food processing

The DICK knife 8 2891 13 in yellow is a professional boning knife with a 13 cm curved, stiff blade. It is designed for use in commercial meat and food processing. The yellow handle colour enables straightforward colour coding for area assignment within the operation.

Product features

- Curved blade shape for ergonomic work during boning and trimming
- Stiff blade for precise cutting guidance and controlled force application
- Suitable for professional use in meat and food processing
- Coloured handle supports operational colour coding for hygiene and area separation
