Description

Provisions Bucket with Lid – Rectangular Food Container for Kitchen, Counter and Production

The white provisions bucket with lid is a rectangular plastic container with a capacity of 12.8 litres, suitable for storing and transporting food in commercial kitchens, at the counter and in food production. The included lid protects the contents from contamination. The integrated plastic handle facilitates carrying and handling of the filled container.

Product Features

- Lid included – protects contents from contamination and enables stackable storage
- Plastic handle for safe and ergonomic transport
- Rectangular shape for space-saving storage and optimal use of space in cold rooms or shelving
- Suitable for use in kitchen, counter and food production environments
