Description

DICK Multiron Honing Steel – precise sharpening for professional use

The DICK Multiron is a honing steel from the DICKORON series, designed for professional use in food processing and the butchery trade. With a blade length of 30 cm, it is suitable for regular honing and refreshing of blade edges. The steel is part of the established DICKORON range by F. DICK, one of the leading manufacturers of professional sharpening tools.

Product features

- For honing and realigning knife blades in professional operations
- Suitable for continuous use in artisan and industrial food processing businesses
- From the DICKORON series – designed to meet professional requirements
- Ergonomically designed handle for safe and fatigue-free working
