Description

Refuse Sacks 240 Litres – Heavy-Duty Large-Volume Bags for Commercial Waste Disposal

The 240-litre refuse sacks are designed for use in commercial and industrial environments. They conform to Type 70 and are manufactured from LDPE, providing sufficient tear resistance for heavy waste. The blue colouring allows easy sorting and area assignment within the facility.

Product Features

- Large fill volume for disposing of high quantities of waste in a single operation
- Robust LDPE material for sufficient tear resistance even with heavy contents
- Blue colour for visual differentiation and sorting of various waste fractions
- Suitable for commercial and industrial disposal requirements
- Available by the carton for efficient stock management on site
