Product data

Description

BÄREN Film Apron with Elastic Waistband – Hygienic Protective Apron for Production, Kitchen and Counter

The BÄREN Film Apron with elastic waistband is a lightweight protective apron for use in food processing, kitchen environments and at the counter. The integrated elastic waistband ensures a secure fit and allows for quick donning and doffing without additional ties. The apron protects workwear from moisture, splashes and light soiling in daily production operations.

Product Features

- Elastic waistband for easy and quick donning without additional tie straps
- Protects workwear from moisture, splashes and light soiling
- Suitable for use in food processing as well as in kitchen and counter environments
- Lightweight construction for comfortable wear even during extended use
- Smooth film surface can be quickly wiped down and cleaned
