Description

Swibo Ham Knife 25 cm – Straight Blade for Professional Food Processing

The Swibo ham knife with a 25 cm straight blade is a professional tool from the Swibo collection by Victorinox, designed for use in commercial food processing. The straight blade shape is suited for precise slicing and portioning of ham and similar meat products. The knife is supplied with a self-service sheath and is available in practical packaging units for commercial purchasing.

Product Features

- Designed for professional continuous use in meat and food processing
- Straight blade shape enables clean, linear cuts when slicing ham and cold cuts
- Distinctive handle colour supports colour-coded area and hygiene separation in the workplace
- Supplied with self-service sheath – protects the blade during storage and transport
- Part of the established Swibo collection by Victorinox – developed specifically for the food industry
