Description

Face Shield for DIN/EN Helmet – Reliable Protection for the Face Area

The face shield for DIN/EN helmet is an attachment that can be mounted on standard helmets complying with DIN/EN standards, protecting the face from splashes, particles and other impacts. It is suitable for use in production environments as well as in food processing, kitchen and counter applications. The product is supplied as an individual unit.

Product Features

- Compatible with DIN/EN-standard helmets – no special equipment required
- Protects the face from splashes, particles and mechanical impacts
- Extends existing head protection equipment without additional wearing components
- Suitable for use in production, food processing, kitchen and counter environments
