Product data

Description

Victorinox Vegetable Knife with Serrated Edge – precise cutting of vegetables and fruit in professional use

The Victorinox Vegetable Knife with serrated edge is a professional kitchen knife for daily use in commercial food processing. The serrated edge enables clean cuts even on products with smooth or slightly firm surfaces without crushing them. Victorinox stands for durable quality and reliable workmanship in professional environments.

Product features

- Serrated edge for clean, uniform cutting without crushing the cut material
- Suitable for continuous use in commercial kitchens and food processing
- Ergonomic handling for low-fatigue work during repetitive cutting tasks
- Brand quality from Victorinox – proven in professional catering and the food industry
- Serrated edge remains fully functional long-term even under intensive use
