Description

Swibo Boning Knife 13 cm – flexible knife for precise boning and trimming

The Swibo boning knife with a 13 cm straight and flexible blade is a working knife from the Swibo collection by Victorinox, designed for professional use in meat processing, butchery and food production. The flexible blade enables precise boning and working along contours. The knife is supplied in a self-service sheath and is available in a packaging unit of 6 pieces.

Product Features

- Flexible blade for precise boning and working along bones and joints
- Straight blade shape for linear cutting guidance when breaking down cuts
- Distinctive orange handle for easy identification and visual checks in the workplace
- Supplied in self-service sheath – hygienic storage and safe transport

- Part of the Swibo collection by Victorinox – tailored to professional requirements in food processing
