Description

Hearing Protection Band Proflex 24 – flexible banded hearing protector for occupational use

The Hearing Protection Band Proflex 24 is a reusable banded hearing protector for work areas with noise exposure. The flexible band allows comfortable wearing and can be adapted to different head shapes. The product is suitable for use in production, food processing, as well as kitchen and counter environments.

Product features

- Flexible band for individual wearing comfort and adaptation to various head shapes
- Reusable – suitable for permanent occupational use
- Protects hearing from harmful noise in the workplace
- Compact design for easy wearing and storage
- Suitable for hygiene-sensitive areas such as food processing, kitchen and counter environments
