Description

Spare Parts: Niroflex EASYFIT Strap (Hand) – Replacement Strap for Cut-Resistant Gloves

The Niroflex EASYFIT Strap (Hand) is a spare part for cut-resistant gloves of the Niroflex EASYFIT system. It enables targeted maintenance of cut-resistant gloves in food processing, at the counter and in production, without having to replace the entire glove. The replacement strap extends the service life of the glove system and contributes to cost efficiency in operations.

Product Features

- Original spare part for the Niroflex EASYFIT cut-resistant glove system
- Enables replacement of the closure strap without full glove replacement
- Maintains the functionality and secure fit of the cut-resistant glove
- Suitable for use in food processing, production, as well as kitchen and counter environments
- Reduces spare part costs through modular replaceability of individual components
