

NIROFLEX 2000, 80mm Cuff

Content: 1

Product data

Manufacturer: Friedrich Münch GmbH & Co. KG

Description

NIROFLEX 2000 Cuff 80 mm – Cut Protection for Wrist and Forearm in Meat and Food Processing

The NIROFLEX 2000 cuff with a length of 80 mm extends the cut-resistant glove of the same name by providing additional protection for the wrist and forearm. It is designed for use in commercial food processing, such as at deboning lines, in the kitchen and at the counter, as well as in skewer production. The cuff protects the exposed area between the glove and sleeve from cut injuries.

Product Features

- Closes the protection gap between the cut-resistant glove and workwear
- Suitable for use in commercial meat and food processing
- Designed to match the NIROFLEX 2000 product line

- Applicable in production, kitchen and counter environments as well as in the processing of skewers and wooden cutlery
- Hygienically suitable for use in food-adjacent work areas

Technical Data / Specifications

- Model: NIROFLEX 2000
- Cuff length: 80 mm
