Product data

Description

KASTELL Sticking Knife – professional knife for food processing

The KASTELL Sticking Knife is a professional working knife for use in food processing, particularly in butchery, slaughterhouses and related areas. Sticking knives of this type are characterised by a tapered, sturdy blade that enables precise penetration and clean working. The product is aimed at commercial users with correspondingly high demands on handling and durability.

Product features

- Tapered blade for precise penetration and controlled cutting guidance
- Designed for continuous use in commercial food processing
- Suitable for slaughterhouses, butcheries and comparable work environments
- Robust construction for demanding working environments
