Description

Kastell-Messerkorb 2+2 – Safe Storage and Organised Transport of Knives

The Kastell-Messerkorb 2+2 is a storage and transport container for professional knives, designed for use in commercial food processing and butchery. The designation 2+2 indicates a capacity for a total of four knives, which are stored securely and within easy reach in separate compartments. The product is aimed at businesses that place importance on organised handling and hygiene in knife management.

Product Features

- Structured accommodation for multiple knives – organised storage and quick access during daily work
- Separate compartments protect blades from mutual damage
- Suitable for commercial use in butchery, food processing and comparable operations
- Facilitates hygienic and safe transport of knives between workstations
- Robust basket construction for continuous daily use
