Description

L+W Wolfteile D, Normal Steel – Spare Part for Professional Kitchen and Counter Use

The L+W Wolfteile D, Normal Steel is a spare or accessory part for the food processing sector, designed for use with meat grinders and comparable food processing machines. The part is supplied as an individual unit and is intended for businesses in kitchen, counter, and industrial production environments that rely on dependable spare parts for their processing equipment. The normal steel version meets standard requirements for common processing tasks.

Product Features

- Suitable as a spare or accessory part for meat grinder machines in food processing
- Normal steel version for standard use in kitchen, counter, and production environments
- Available individually, flexible for use as a spare part or for stock

- Designed for continuous commercial use in meat and food processing
