Product data

Description

Gaskets for TRE SPADE Fillers – Replacement Seals for Hygienic Continuous Operation

These gaskets are designed as replacement and wear parts for fillers of the TRE SPADE brand. They ensure the sealing integrity of the equipment and thus guarantee trouble-free operation in food processing, in kitchen and counter environments, and in production. Regular replacement of the gaskets contributes to the operational safety and hygiene of the filling equipment.

Product Features

- Precisely fitting for fillers of the TRE SPADE brand
- Ensures the sealing integrity of the filling equipment and prevents unwanted product leakage
- Suitable for use in food processing, in kitchen and counter environments, and in production
- Easy replacement as a wear part to maintain operational readiness
- Preserves the hygiene and functional reliability of the filling equipment
