Description

Swibo Boning and Sticking Knife – precise professional knife for meat processing

The Swibo boning and sticking knife with a 13 cm straight blade is a working knife for professional use in meat and food processing. It is part of the Swibo collection by Victorinox, designed specifically for the requirements of industrial and artisan processing operations. The distinctively orange handle supports colour coding and zone identification in the workplace.

Product features

- Suitable for boning and sticking – combined purpose for versatile cutting tasks in meat processing
- Straight blade shape for precise, controlled cutting
- Distinctive handle colour supports colour-coded area or product identification in hygiene-sensitive environments

- Part of the Swibo collection – designed for professional continuous use in food processing operations
- Ready-to-sell self-service packaging
