Product data

Manufacturer: Friedrich Münch GmbH & Co. KG

Description

Niroflex easyfit Full Arm – Cut-Resistant Glove for Complete Arm Protection in Food Processing

The Niroflex easyfit Full Arm is a cut-resistant glove made of metal mesh that protects the hand and forearm in a single piece. It is designed for use in commercial food processing, at kitchen and deli counters, and in production environments. The full-arm design offers a significantly extended protection range compared to conventional gloves.

Product Features

- Continuous protection of hand and forearm without additional sleeve protection
- Suitable for work with knives, skewers, and similar cutting tools
- Flexible metal mesh for good freedom of movement during work
- Easy to put on due to the ergonomic easyfit design
- Suitable for use in production, kitchen, and at the counter
- Food-safe for use in direct food contact areas
