Description

Replacement Head for Wolf Brush (large) – Exchange Head for Professional Cleaning

The HAUG replacement head for the large wolf brush (article number 8740) is a spare part for commercial cleaning applications. The hard brush head with a diameter of 120 mm is designed for use in hygiene-sensitive areas. It is supplied as an individual unit and enables the economical continued use of existing wolf brush holders through simple head replacement.

Product Features

- Hard bristle configuration for thorough cleaning performance on robust surfaces
- Large brush head for efficient work on larger surface areas
- Replaceable head extends the service life of the brush system and reduces material costs
- Suitable for use in hygiene-critical production and processing areas
