Description

DICK Honing Steel Polished – Precise Sharpening for Professional Use

The DICK honing steel polished (model 7 4691 25R) is a professional honing steel for the maintenance and sharpening of knife blades in commercial use. The polished surface provides a fine, smooth honing action and maintains cutting performance even under intensive use. The product is available per piece and is aimed at businesses in food processing, catering and butchery.

Product Features

- Polished steel surface for fine, even honing action
- Suitable for daily use in professional food processing
- Ergonomic handle for secure grip during honing
- Proven quality from German manufacturer F. DICK
