Description

KASTELL Knife Basket 2+2+1 – Structured Storage and Safe Transport of Knives

The KASTELL Knife Basket 2+2+1 is a storage solution for professional knives in commercial use, designed for the organised and blade-friendly accommodation of up to five knives. The designation 2+2+1 refers to a clearly structured compartment layout that holds knives of different sizes or types separately from one another. Suitable for use in butcheries, food processing operations and comparable commercial kitchen and production environments.

Product Features

- Structured compartment layout for up to five knives (2+2+1)
- Blade-friendly storage prevents damage to cutting edges and blade flanks
- Organised accommodation of multiple knives for a clear and tidy workstation
- Suitable for professional use in food processing and meat processing
- Facilitates safe transport and ready-to-hand provision of knives at the workstation
