## Description

### Packing Needles – robust tools for kitchen, counter and production

Packing needles are sturdy needles used in food processing, at the meat counter and in production for closing, fastening or portioning goods. They are suitable wherever secure and fast fixing is required without additional aids. The product is designed for professional use in kitchens, butcheries and food production.

### Product features

- Secure closing and fastening of meat, poultry and other food products
- Suitable for use at the counter and in commercial food processing
- Easy handling for fast, efficient work
- Versatile use in kitchen, butchery and production
