Description

Fish filleting knife with ergonomic handle – precise blade control for fish processing

The DICK fish filleting knife from the ErgoGrip series is a professional knife for commercial food processing. The flexible, slim blade enables clean and precise filleting along bones and contours. The colour-coded handle supports compliance with hygiene concepts based on colour-coded area separation.

Product features

- Specifically designed for filleting fish
- Slim blade geometry for precise cutting along bones and fillets
- ErgoGrip handle for a secure grip even on wet and greasy surfaces

- Colour-coded handle to support food hygiene area separation
- Suitable for continuous use in commercial fish and food processing operations
