Description

Meat Stamping Ink RAIDEX – Food-Safe Marking Ink for Meat Processing

RAIDEX meat stamping ink is a stamping ink developed specifically for the marking of meat and meat products. It is used to mark meat products reliably and permanently in production, at the counter and in food processing. The ink is tailored to the requirements of the food processing sector.

Product Properties

- Suitable for marking and stamping of meat and meat products
- Food-safe – suitable for direct use on foodstuffs
- Adheres reliably to the surface of meat products
- Applicable in production, butchery and at the service counter
- Supports traceability and labelling compliance in the food sector
