Description

Swibo Boning Knife – narrow, straight blade for precise boning work

The Swibo boning knife with a 13 cm long, straight and narrow blade is designed for the requirements of professional meat processing and butchering. The narrow blade geometry enables precise working along bones and joints. The knife is part of the Swibo collection by Victorinox and is supplied including an SB sheath.

Product Features

- Narrow, straight blade shape for precise guidance along bones and joints
- Suitable for professional use in meat processing, butchering and the meat trade
- Including SB sheath for safe storage and transport
- Part of the Swibo collection by Victorinox – tailored to the requirements of food processing
