Product data

Description

BÄREN Foil Apron with Click Fastening – quick to put on, hygienic in use

The BÄREN Foil Apron with Click Fastening is a protective apron for use in food processing, kitchen and counter work, and production environments. The click fastening allows for rapid donning and doffing without knots or ties. The apron reliably protects clothing from moisture, splashes, and light soiling during daily operations.

Product features

- Click fastening for quick and straightforward donning and doffing
- Protection of clothing against moisture, splashes, and contamination
- Suitable for use in food processing as well as kitchen and counter workplaces
- Suitable for use in production areas
- Lightweight, flexible film construction for unrestricted freedom of movement
