Description

DuraSave OPTIMUS S2 FO SR – Safety Shoe for Production, Kitchen and Counter Work

The DuraSave OPTIMUS is a safety shoe of protection class S2 with the additional designations FO (fuel and oil resistance of the outsole) and SR (enhanced slip resistance). It is designed for use in commercial work environments where foot protection, sure-footedness and resistance to moisture or operating fluids are required. The combination of standard markings is aimed at businesses with elevated occupational health and safety requirements.

Product Features

- Protection class S2: basic protection to EN ISO 20345 including toe cap and antistatic properties
- FO designation: outsole resistant to fuels and oils – suitable for use with exposure to operating fluids

- SR designation: enhanced slip resistance on tiles and steel floors – relevant for wet and greasy surfaces in kitchen, counter and production environments
- Suitable for food processing and production-adjacent work areas
- Combination of occupational safety requirements and everyday suitability in industrial and kitchen environments

Technical Data / Specifications

- Protection class: S2
- Additional designations: FO (fuel and oil resistant outsole), SR (enhanced slip resistance)
- Standard: EN ISO 20345
