Description

KASTELL Honing Steel oval, 31 cm – reliable blade sharpening for professional use

The KASTELL steel in the oval version with a length of 31 cm is a professional honing steel for daily use in food processing and butchery. Oval honing steels are particularly well suited for honing and stropping blades, as the grind geometry supports uniform edge treatment. The product is available as a single unit and is aimed at commercial users with regular sharpening requirements.

Product features

- Oval cross-sectional profile for effective honing and stropping of blades
- Suitable for daily professional use in butchery, food processing and large-scale kitchens
- Handy length for safe and controlled working
- Robust construction for lasting commercial use
