Description

Extra Long Poly Gloves – Hygiene Protection for Production, Kitchen and Counter

These disposable polyethylene gloves provide reliable protection during food processing, counter and kitchen work. The extra long design also protects the wrist and forearm, making them particularly suitable for work with skewers, wooden utensils and other food items. As a disposable product, they meet basic hygiene requirements in commercial environments.

Product Features

- Extra long design for extended protection of wrist and forearm
- Suitable for use in food processing as well as kitchen and counter environments
- Quick to put on with no risk of latex allergy
- Disposable product for single hygienic use
- Suitable for work with skewers and wooden utensils

Technical Data / Specifications

- Material: Polyethylene (PE)
- Pack size: 50 pieces
